

ENVIRONMENTAL POLICY

- ❖ Olex Australia Pty Limited produces electrical cables for the industrial, construction, manufacturing and electricity supply industries.
- ❖ The main manufacturing processes conducted at the Tottenham, Lilydale & New Plymouth sites are;
 - Wire drawing &/or bunching of copper &/or aluminium conductors
 - Extrusion to insulate conductors
 - Screening & stranding
 - Laying-up of individual cores to make multi-core cables
 - Sheathing extrusion to provide a protective covering
 - The Lilydale & New Plymouth sites have PVC compounding operations and the Tottenham site has aluminium melting, rolling & annealing operations.
- ❖ Olex is committed to preventing pollution from normal, abnormal and emergency conditions by means of adequate operational controls and emergency preparedness plans.
- ❖ Olex is committed to reducing our impact on the environment through;
 - Reducing solid waste going to landfill
 - Using environmentally friendly materials
 - Reducing emissions to air/water/sewer
 - Reducing liquid wastes
 - Reducing water usage
 - Reducing energy use in cable production
 - Compliance with all applicable environmental legislation and regulatory requirements.
- ❖ The commitment of Olex towards continual environmental improvement is supported by our parent company Nexans of France.
- ❖ Olex will coordinate the management of its environmental programs through its Health, Safety and Environment management committee meetings

A handwritten signature in black ink, appearing to read 'A.W. Stobart'. The signature is written in a cursive style with a long horizontal line extending from the end.
